THE WORLD OF GILBERT & GEORGE

A FILM

Gilbert & George have worked together as sculptors since 1968 making living sculptures, photo-pieces, drawings, paintings, video-sculptures, books and works in other forms.

In **THE WORLD OF GILBERT & GEORGE**, their first film, they frankly reveal their hopes, despairs, feelings, thoughts, views and passions.

Gilbert & George have used the form of film in a distinctive and artistic way to give a damning and hopeful picture of our world.
