March the 7th 1972 .

Dear Jean Christoph Ammann ,

This letter may come as something of a suprise to you .

After much art thought we have come strongly to the conclusion that a General show of our work in your museum would misrepresent our current art feelings .

However , we are still prepared to exhibit "The Paintings" with you in Luzern .We would ,of course , need return air tickets and expenses so that we could supervise the installation .

We do hope that this change of plan does not inconvenience you greatly and that you will in some way understand .

It is our wish that no ill feelings should arise .

With Very Best Wishes to You from

Gilbert and George
